Global Services & Solutions comprises an assemblage of committed, responsive and experienced business professionals who are capable of feeling the pulse of the changing market conditions & trends well in time. With over 18 years in business, we have developed an insight into assessment of forthcoming business opportunities. This foresight allows the Company to capitalize on the opportunities in a diversified field ranging mainly from Aviation and Defence Procurement to Defence Production and Indiginisation, etc.

We are located in Rawalpindi, the nerve center of business activities related to Public Sector / Government Organizations in Pakistan specially the Ministry of Defence including Pakistan Army, Air Force, Navy and a number of Defence Production Organizations which includes PAC Kamra, HIT Taxila and Heavy Rebuild Factory etc.

Global Services & Solutions have been associated with the procurement of new equipment, weapon systems and platform to Pakistan Armed forces since 1995. At the same time, it has

always been our endeavor to assist various defence organizations of Pakistan in achieving their goal of self-reliance by offering technical services, logistics support and raw materials etc. to the customers which are involved in:

**Indiginisation of Defence Equipment.**

**Upgrades and Modification Programs.**

**Logistics & Maintenance Support Programs.**

**Service Life Extension Programs.**

Professional approach of our team coupled with engineering & defence background in the fields of Aviation, Electrical and Mechanical Engineering enables us to achieve high rate of business success, this high percentage of success is achieved by our team mainly because of their farsightedness, experience, dedication and good working relations at all management levels and organizational structures starting from users in the respective Defence Forces to the decision makers in Ministry of Defence.

**In short, we are committed to providing high quality products and support services to Pakistan's Defence Forces and Public Sector by linking customers to the foreign principals thus making a bridge of confidence and mutual trust.**

# OUR Services & Solutions

## Repair/Overhaul Management

Our OEM certified repair and maintenance programs offer overhaul options for engines, air-frame components and avionics by providing integrated value added service.

## Procurement Service

Global Services & Solutions offer leading aviation and defense contractors with procurement related services which includes liaison office management, sales and marketing efforts in Pakistan.

## Logistics Management

We provide foreign aviation and defense contractors with on ground logistic services related to support of their equipment and hardware both relating to new induction or as after-sales support.

## Consultancy

Our highly-professional staff has the ability to make a detailed report on the possibilities of your product so as to enhance your business horizons by taking it to an unprecedented level.

Our consulting services include market research, basic due diligence and competitive market analysis and strategic insight and formulation to meet the aviation industry demands of today.

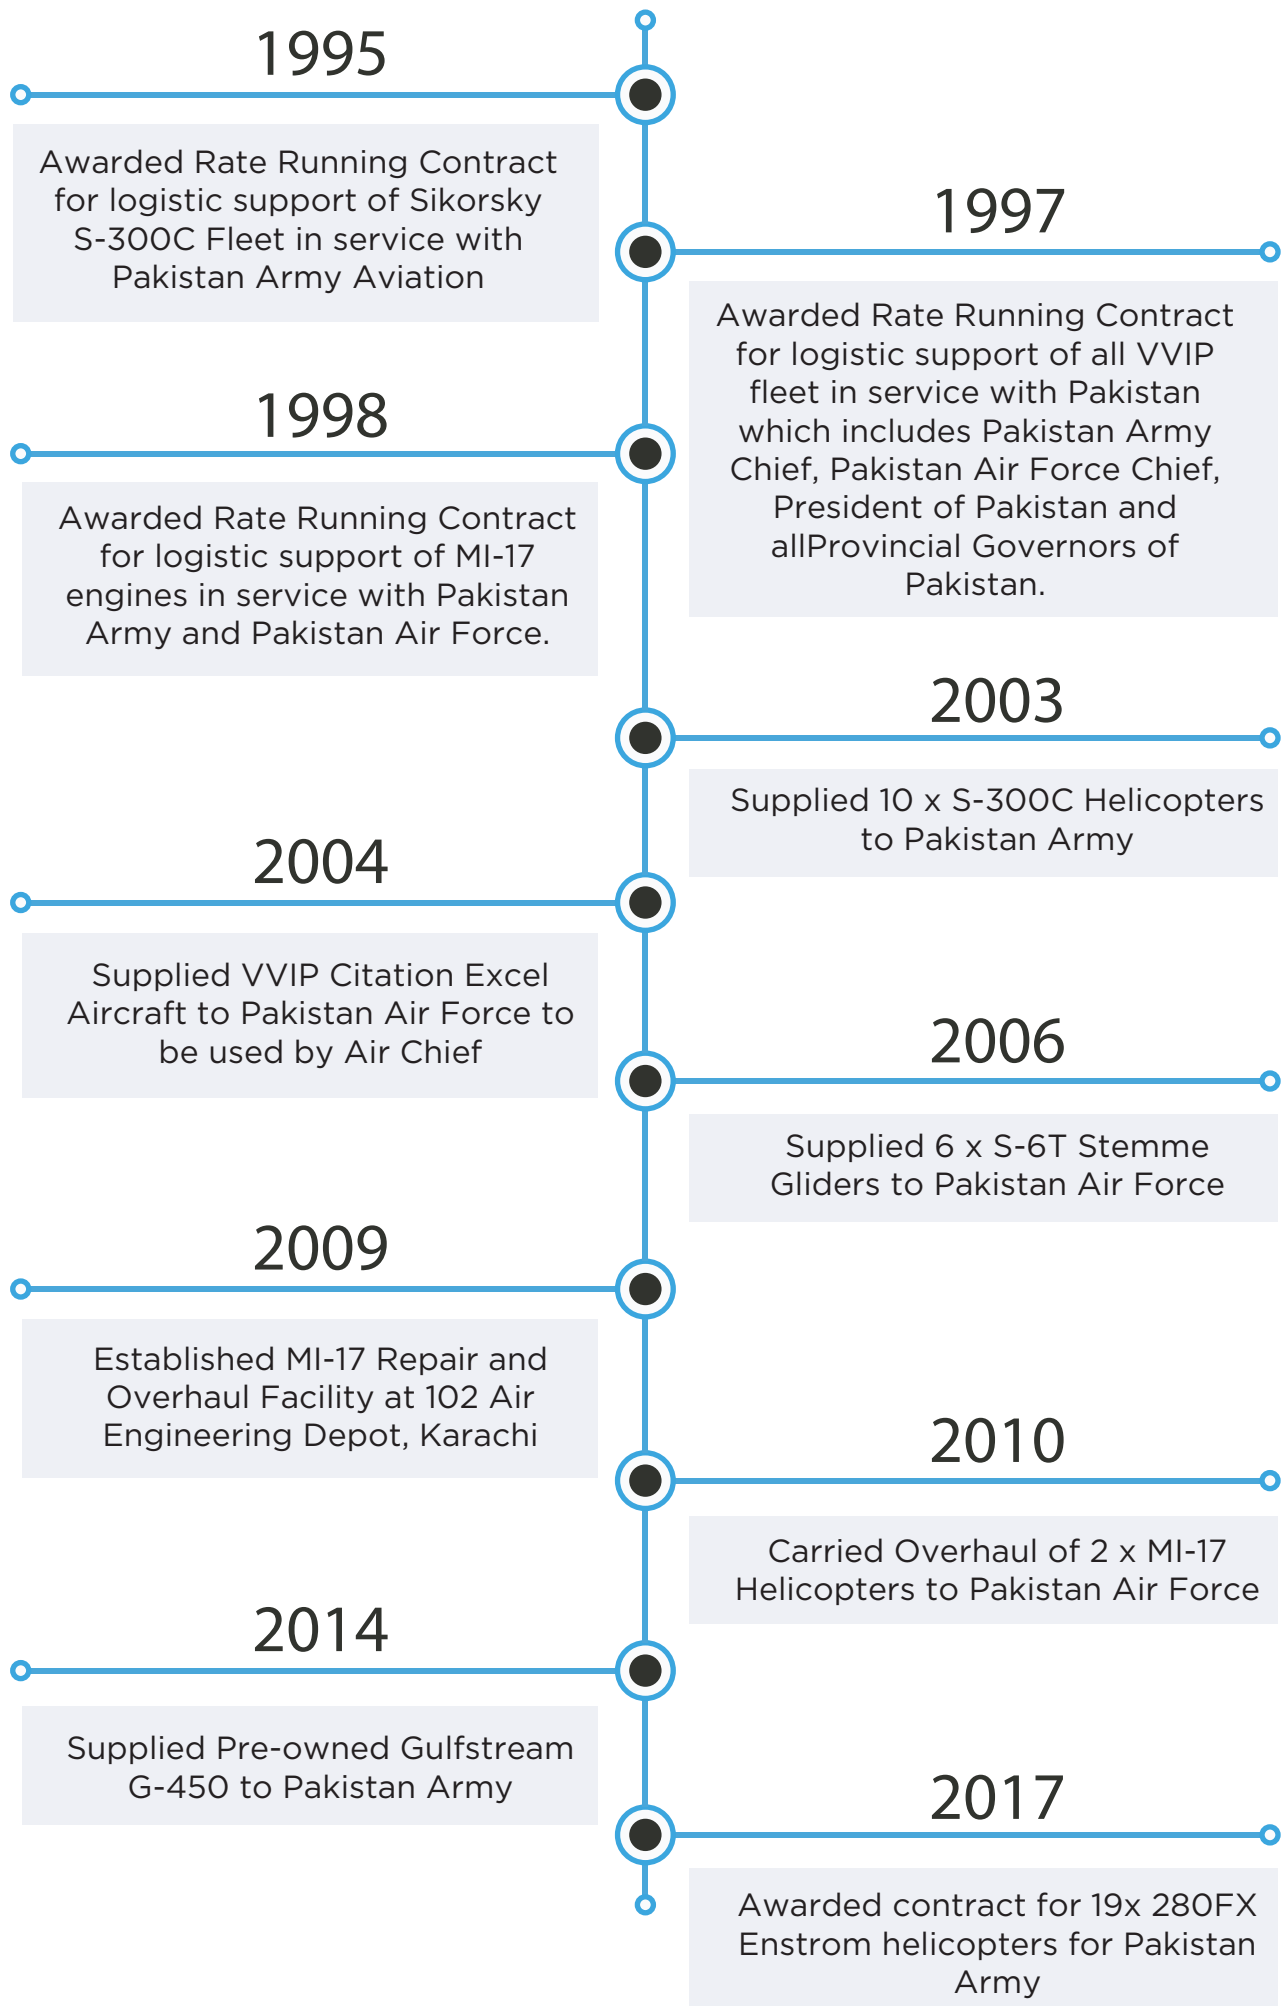

# LIST OF A FEW FOREIGN PRINCIPALS REPRESENTED IN PAKISTAN

Although we have a long list of foreign Principals associated with our company on a variety of Civil & Defence related business activities here we would like to list some of our Principals which currently have on going projects and valid contracts represented by GSS in Pakistan.
